Action Taken By the National Board of Trade.

THE THIRD DAY'S SESSION

Report of the Committee on Postal Affairs Submitted.

Advocate Consideration of the Extablishment of a Postal Savings Pauk-Resolutions Adopted.

When the National Board of Trade was called to order this morning Mr. Eb.role, of Cincinnati, presented the report of the committee on reciprocity. This emmittee points out that as the Government of the United States and Great Britain have appointed a joint high comrisdon to consider the establishment of reciprocal trade relations with Canada, and that it is manifestly appropriate in eaching conclusions in regard to trade prestions, the interests of the many hould be recognized as paramount to those of the few. It was resolved that in the opinion of the National Board of Trade the commercial, manufacturing and industrial prosperity of this country will be greatly promoted by the neurest ractical approach that can be made to the establishment of complete reciprocal trade relations between the United States, Canada and the Crown Coloni s

A large number of scarlet fever cases have recently made their appearance in this section of the city. The disease seems to be spreading rapidly and is of a severe type.

The canal is closed for the season, and coal has been shipped from Cumberland for nearly a week. Many boats are locked in the ice at various points, but the ice breakers have been put to work and it is thought that most of the boats will get through. As soon as these boats arrive at either terminus the water wii be drawn from the canal for the winter. Last week a total of 2,445 tons of coal were shipped by the canal, these ship-ments having been made early in the week. During the past season 23,245 tons were sent by the canal, this being a decrease as compared with the same period last year of 2,582 tons. This decrease is especially significant at this stage of the canal's affairs. There has been a large increase in the output of coal in the George's Creek, Cumberland, region, but notwithstanding this fact, the shipments
